Glass Roof Systems

Matek Grup Dream

Dream fixed glass roof is a system that can be applied to terraces, balconies and gardens in commercial areas and houses. Matek Grup Dream, produced by using high quality aluminum profiles and insulated glasses suitable for outdoors, offers the opportunity to experience outdoor comfort indoors as well.

It is an ideal product with maximum sky pleasure with its wide glass dimensions and flexible mounting features that can be adapted to any size according to the space. Matek Grup Dream is resistant to adverse weather conditions, waterproof and rustproof.

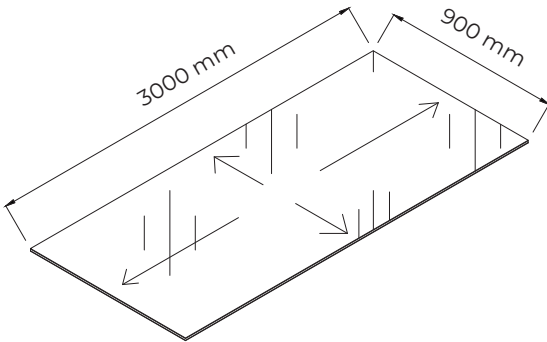

You can customize selecting the colour of your choice from more than 1600 existing RAL colors.
